

DIPRAM BISWAS

Frontend Developer & Creative Developer

☎ +91-9232696735 ✉ dipramb9090@gmail.com 🔗 linkedin.com/in/dipram-biswas 🐙 github.com/Dipram-9090 🌐 dipram.in

Summary

Frontend Developer specializing in animation-driven, high-performance web experiences. Shipped **3 production websites** — including serving as **Technical Lead** on a multi-institution tech fest platform — as sole developer or within cross-functional teams. Handles the full frontend ownership stack: UI/UX in Figma, implementation in React and Next.js, and motion engineering in GSAP and Framer Motion, eliminating the design-to-development handoff entirely.

Skills

Frontend: React, Next.js, TypeScript, JavaScript

Languages: C, C++ (DSA, OOP)

Styling: Tailwind CSS, SCSS, CSS

Animation: GSAP, Framer Motion, Lenis

Design: Figma, Adobe Illustrator, Adobe Photoshop **Tools:** Git, GitHub, VS Code

Projects

Personal Portfolio | *React, Tailwind CSS, GSAP, Framer Motion, Lenis* | dipram.in **Jan 2026 – Present**

- Sole designer and developer — architected, designed in Figma, and deployed a production-grade site compressing a typical 2-person workflow into one, with no external handoff.
- Scaled to **700+ organic profile visitors** via distinctive visual identity and route-level lazy loading; engineered GSAP and Framer Motion scroll-triggered sequences retaining visitors beyond the fold.

Synchronicity 2026 — ACM Hackathon Website | *React, Tailwind CSS, GSAP, Framer Motion* | synchronicity.ju-acm.com **2026**

- **Sole motion developer** in a 6-person team — owned 100% of the animation layer, shipping all sections on schedule for the live event launch across 5 parallel workstreams.
- Designed intuitive UI/UX registration flows, improving information hierarchy and reducing visual friction across all key participant-facing pages.

Srijan 2026 — Tech Fest Website | *Next.js, Tailwind CSS, GSAP, Framer Motion* | srijanju.in **2025 – 2026**

- Owned the **complete Events section** end-to-end — architecture, layout, GSAP animations, event detail pages, and event admin flows — for a platform serving students across IITs and 10+ universities.
- Engineered page-level animations maintaining **60fps on mid-range devices** and led homepage contributions unifying the visual language across JU's flagship tech event.

Leadership & Involvement

Technical Lead | Srijan 2026, Jadavpur University Tech Fest | srijanju.in **2025 – 2026**

- Led end-to-end technical delivery for JU's flagship tech fest — one of the largest in Eastern India — owning the public platform, event management system, admin dashboard, and user flows; set technical standards, reviewed code, and coordinated the full development team.

Core Member | ACM Jadavpur University | *Developer & Designer* **2025 – Present**

- Led motion engineering for Synchronicity 2026 as the sole animation developer within a 6-person team, building the hackathon website end-to-end.

Core Member | CodeClub JUSL & JUGS | *Developer & Designer* **2025 – Present**

- Designed official logos for both CodeClub JUSL and JUGS in Adobe Illustrator, establishing distinct visual identities across all public-facing club communications.

Achievements

Smart India Hackathon 2025 | *Cleared Internal Selection Rounds at Jadavpur University*

Education

B.E. in Information Technology

Jadavpur University, Kolkata

Expected Graduation: 2028

Current CGPA: 7.88 / 10 | Coursework: DSA, OOP, DBMS, Computer Networks
