

DIPRAM BISWAS

Frontend Engineer & Creative Engineer

☎ +91-9232696735 ✉ dipramb9090@gmail.com 🔗 linkedin.com/in/dipram-biswas 🐙 github.com/Dipram-9090 🌐 dipram.in

Summary

Frontend Engineer specializing in animation-driven, high-performance web architecture. Shipped **3 production websites** — including serving as **Technical Lead** on a multi-institution platform. Drives the full frontend lifecycle: engineering intuitive UI/UX flows, structuring scalable components in React and Next.js, and implementing complex motion systems via GSAP and Framer Motion to ensure flawless execution of highly interactive interfaces.

Skills

Frontend: React, Next.js, TypeScript, JavaScript

Languages: C, C++

Styling: Tailwind CSS, SCSS, CSS

Animation: GSAP, Framer Motion, Lenis

Tools & Architecture: Git, GitHub, VS Code, REST APIs, Vercel

Coursework: DSA, OOP, DBMS, Computer Networks

Projects

Personal Portfolio | *React, Tailwind CSS, GSAP, Motion, Lenis* | dipram.in

Jan 2026 – Present

- Architected and engineered a production-grade platform, independently translating advanced UI/UX requirements into a seamless, highly interactive web application.
- Scaled to **900+ organic profile visitors** via a highly optimized visual architecture and route-level lazy loading; engineered complex GSAP and Framer Motion scroll-triggered sequences enhancing user retention.

Synchronicity 2026 — ACM Hackathon Website | *React, Tailwind CSS, GSAP, Motion* | synchronicity.ju-acm.com

Feb 2026

- **Sole motion engineer** in a 6-person team — owned 100% of the animation layer, shipping all sections on schedule for the live event launch across 5 parallel workstreams.
- Engineered robust UI/UX registration flows, programmatically improving information hierarchy and reducing user friction across all participant-facing routes.

Srijan 2026 — Tech Fest Website | *Next.js, Tailwind CSS, GSAP, Framer Motion* | srijanju.in

2025 – 2026

- Owned the **complete Events section** end-to-end — architecture, layout, GSAP animations, event detail pages, and admin flows for a platform serving students across IITs and 10+ universities.

Leadership & Involvement

Technical Lead | Srijan 2026, Jadavpur University Tech Fest | srijanju.in

2025 – 2026

- Led end-to-end technical delivery for JU's flagship tech fest — one of the largest in Eastern India — owning the public platform, event management system, admin dashboard, and user flows; set technical standards, reviewed code, and coordinated the full development team.

Core Member | ACM Jadavpur University | *Software Engineer*

2025 – Present

- Led motion engineering for Synchronicity 2026 as the sole animation engineer within a 6-person team, building the hackathon website architecture end-to-end.

Core Member | CodeClub JUSL & JUGS | *Software Engineer*

2025 – Present

- Spearheaded UI component architecture and digital branding guidelines, establishing scalable visual systems for all public-facing technical platforms.

Achievements

Winner — Snap Syntax 3.0 | *Srijan 2026, Jadavpur University*

- Secured 1st place in a high-intensity frontend challenge by reconstructing a complete website interface from memory after a 5–10 minute visual inspection, demonstrating exceptional UI comprehension, layout precision, and rapid engineering under time constraints.

Smart India Hackathon 2025 | *Cleared Internal Selection Rounds at Jadavpur University*

Education

B.E. in Information Technology

Jadavpur University, Kolkata

Expected Graduation: 2028

Current CGPA: 7.88 / 10
