

DIPRAM BISWAS

Frontend Engineer & Creative Engineer

☎ +91-9232696735 ✉ dipramb9090@gmail.com 🔗 linkedin.com/in/dipram-biswas 🐙 github.com/Dipram-9090 🌐 dipram.in

Professional Summary

Frontend Engineer specializing in animation-driven, high-performance web architecture and intuitive UI/UX implementation. Shipped **3 production platforms**, including acting as **Technical Lead** for a multi-institution ecosystem. Adept at driving the full frontend lifecycle—from structuring scalable, state-managed components in React and Next.js to executing complex motion systems via GSAP and Motion. Focused on writing clean, accessible, and highly optimized code for scalable web applications.

Technical Skills

Core Web Technologies: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3

Styling & UI Architecture: Tailwind CSS, SCSS, Responsive Web Design, Cross-browser Compatibility

Motion & Animation: GSAP, Framer Motion, Lenis (Smooth Scrolling)

Tools & Ecosystem: Git, GitHub, RESTful APIs, Vercel, Web Performance Optimization, State Management

Programming Languages: C, C++

Computer Science Fundamentals: Data Structures & Algorithms (DSA), OOP, DBMS, Computer Networks

Technical Projects

Production Portfolio Platform | *React, Tailwind CSS, GSAP, Motion, Lenis* | dipram.in **Jan 2026 – Present**

- Architected and engineered a production-grade personal portfolio, independently translating advanced UI/UX requirements into a seamless, highly interactive web application.
- Scaled the platform to **900+ organic visitors** by deploying a highly optimized visual architecture and route-level lazy loading to maximize Core Web Vitals.

Srijan 2026 Tech Fest Website | *Next.js, Tailwind CSS, GSAP, Motion* | srijanju.in **2025 – 2026**

- Owned the complete frontend architecture for the Events ecosystem, managing the layout, complex GSAP animations, dynamic event detail pages, and secure admin flows.
- Shipped a highly performant, responsive platform capable of serving students across IITs and 10+ universities without degradation in Core Web Vitals.

Synchronicity 2026 ACM Hackathon Website | *React, Tailwind CSS, GSAP, Motion* | synchronicity.ju-acm.com **Feb 2026**

- Engineered the complete animation layer as the sole motion developer, integrating performant, scroll-triggered sequences across all public routes.

Technical Leadership & Experience

Technical Lead **2025 – 2026**

Srijan 2026 (Jadavpur University Tech Fest) *Kolkata, India*

- Led the end-to-end technical delivery for one of Eastern India's largest tech fests.
- Coordinated a cross-functional development team, set technical standards, conducted code reviews, and implemented Git workflows to ensure deployment stability for the public platform and admin dashboard.

Software Engineer **2025 – Present**

ACM Jadavpur University *Kolkata, India*

- Directed frontend workstreams for Synchronicity 2026, collaborating within a 6-person team to ship all sections on schedule across 5 parallel development tracks.

Software Engineer **2025 – Present**

CodeClub JUSL & JUGS *Kolkata, India*

- Spearheaded UI component architecture and digital branding guidelines, establishing scalable and accessible visual systems for multiple public-facing technical platforms.

Achievements

Winner — Snap Syntax 3.0 (Srijan 2026) | *Jadavpur University*

- Secured 1st place in a high-intensity frontend challenge by reconstructing a complete website interface from memory after a 5-minute visual inspection.

Smart India Hackathon (SIH) 2025 | *Cleared Internal Selection Rounds at Jadavpur University*

Education

B.E. in Information Technology

Jadavpur University, Kolkata

Expected Graduation: 2028

Current CGPA: 7.88 / 10
